## **PREFACE**

**Dear Readers,**

It is with a great pleasure that I announce the **Volume 3 (December, 2021)** of the **Journal of Automation, Electronics and Electrical Engineering JAEED**. This is a scientific journal published by the Kazimierz Pulaski University of Technology and Humanities in Radom. It will come out four times a year and will contain original papers.

We are pleased to announce that the JAEED Journal, in accordance with the announcement of the Minister of Education and Science of December 1, 2021 on the list of scientific journals and reviewed materials from international conferences, has a weight of 40 points.

It is a journal for researchers and specialists allowing them to share experiences, knowledge and research results concerning all aspects in the field of automation, electronics and electrical engineering. It is an open access journal. It means that research results are available for many readers and allow global exchange of knowledge.

The published papers were presented by the authors at the 24th International Conference TransComp 2021, which took place on December 6-8 in Zakopane. The presented papers are published in English and reviewed by two reviewers (the experts having academic title of a professor or Ph.D.) appointed by Editorial Committee for every paper.

I warmly encourage all the readers to send us their thoughts and opinions on this issue. I also invite researchers to submit papers to be considered for publication by the Journal.

I do hope that the presented papers will pique the interest of the readers and encourage them to publish their research results in this journal.

I wish you a pleasant and useful reading.

**Professor Zbigniew Łukasik**  
**Chairman of the JAEED**

**Radom, December 2021**
